Election Mis/Information Tracker [13 Dec: EoP Law Voter Ntc: Re: NewsGuardTech Election Mis/Information Tracker¹⁰³].

As noted in FEC Filing [02 Dec: Upd Corr: Filing FEC-EC: EoP voter US Presidential vote¹⁰⁴: EoP Law Electoral College (excl AZ)] vote: McVeigh: 527, Trump: 0; Biden: 0¹⁰⁵; PDF¹⁰⁶:

[13] Election Commission Accepts Ecology of Peace law citizen votes:

[13.1] If a nations election commission potentially accepts Ecology of Peace law citizen votes:

[A] EoP MILED Clerk votes on behalf of potential EoP law voters; and notifies the Election Commission of the EoP Axis Alliance voter blocks vote; providing the Election Commission officials with the opportunity to make a formal enquiry into the EoP v WiP law voter issues; with the purpose of recommending a formal State EoP Axis Oath office for officials and citizens to file their EoP Axis Alliances Oaths; or an EoP v WiP law referendum to enable formal EoP v WiP law voting resolution on the EoP v WiP law voter issues in dispute.

[B] If such a formal EoP Axis Oath Office is established for officials and citizens to file their EoP Axis Alliances Oaths; or an EoP v WiP law referendum to enable formal EoP v WiP law voting resolution on the EoP v WiP law voter issues in dispute; is held; and no citizens or officials register themselves as EoP Axis Alliance citizens; the EoP vote is withdrawn and rendered null and void.

The EoP Law McVeigh 2020 [mcveigh2020^{1bid}] campaign does not dispute, or intend to dispute, the in/accuracy of any (a) State's Certificate of WiP Law Election and/or (b) State's WiP Law electoral college voters vote; in favour of either of the GOP or DNC WiP Law political parties WiP Law – Biden or Trump – Presidential candidates. A summary of EoP v WiP law [eop-v-wip-law¹⁰⁷] definitions including EoP v WiP Law elections; can be found in EoP Law FEC-EC Vote Filing [PDF¹⁰⁸: pp.50-54/54].

It is doubtful – but not impossible – that any State issued a Certificate of EoP Law Election; but if they do so, such Certificate of EoP Law Election in any and all fifty states [excluding AZ: McV accidentally did not register in AZ], would be issued to [A] the McVeigh2020 campaign, who was the only candidate to register as an EoP law candidate [McVeigh2020: Write In Candidate Filings¹⁰⁹: IA SoS Filing PDF¹¹⁰: pp.350] who [B] as the only EoP law candidate clearly would have received all the EoP law votes from any potential sincere peacenik / honourable warrior US citizen voters in such state, if US elections media coverage – like Japan [Sdfsdfllgggdl: Japanese Revolutionary Fascist Koichi Toyama Runs for Tokyo Governor¹¹¹; warewardan: 2008

United States Presidential Candidate from Japan¹¹²] – allowed all candidates to inform voters of their EoP and/or WiP law policy platforms.

As of date none of the WiP law candidates and/or their lawyers or voters has informally or formally legally disputed EoP law scientific sincere peacenik / honourable warrior legal definition [eop-rh-fr¹¹³; McV20 IA SoS Filing: PDF¹¹⁴; pp.73-77/350], as a scientifically inaccurate sincere peacenik / honourable warrior definition.

[2] EoP MILED Clerks preference was for an ego-literate truthseeker [Annex A6: Nobel errors/EU law mistakes] court venue to make an enquire into in/accuracy of [A] OKC bomb / McVeigh faked execution evidence; and [B] EoP/OKC TRC sincere peaceniks / honourable warriors [EoP RH FR] legal definition:

"Tossing out millions of mail-in ballots would be drastic and unprecedented, disenfranchising a huge swath of the electorate and upsetting all down-ballot races too," Judge Stephanos Bibas wrote on behalf of a panel of three judges, all of whom were appointed by Republican presidents. "Voters, not lawyers, choose the President," the court wrote. "Ballots, not briefs, decide elections." ... "I went to school with Judge Bibas," Katyal said. "He didn't suffer fools gladly then. He's very conservative, but that is the point: true conservatives see this lawsuit for what it is — a baseless attack on our democracy." Chris Krebs: The proof is in the ballots. [60 Minutes: Fired director of U.S. cyber agency Chris Krebs explains why he says vote was "most secure in America"¹³³] Today: You know there is a lot of misinformation out there. And there are people of good faith hearing that misinformation. So I am asking you sir in a way to show your work. How do you know? How do you know this election was secure? Chris Krebs: It's a kind of Keep it Simple Stupid approach. Paper. Paper ballots. Ninety-five percent of votes cast in the 2020 election had a voter verifiable audit trail. That means that the voters intent is registered on the paper. The voter can check that, and then regardless of what happens next in a canvass, audit and recount process, if there is some sort of machine that is compromised; there are subsequent checks like we just saw in Georgia with that hand recount of every ballot; and the outcome was consistent. So again the ability to go back, you effectively have the receipts, and you can check the outcomes. [TODAY: Former US Election Security Chief Reacts to Comment that he should be Shot¹³⁴]

Wikileaks/Dept of State: US Consul Capetown: (2). Attorney Essa Moosa spoke with him last week, says Mandela fully expects that on February 2 De Klerk will announce the unbanning of the ANC, PAC and other organizations, the lifting of the State of Emergency, the return of political exiles to South Africa, and the release of several political prisoners including Mandela himself. Implementation of the announcements would come swiftly after de Klerks speech at the opening of parliament. (3). The SAG is concerned over ANC relations with the SACP and over the working definition of "One Man One Vote," among other "white fears" issues. Mandela has passed de Klerks "proposals" on these topics to the ANC. The organizations announcement that it is willing to negotiate even while apartheid laws remain in place may be part of the ANC's reply to the SAG.
